zinb.params	*Get and set* zinb.params *slot in a* DigitalDLSorter *object.*

Description

Get and set zinb.params slot in a DigitalDLSorter object.

Usage

```
zinb.params(object)

zinb.params(object) <- value
```

Arguments

object	A DigitalDLSorter object.
value	A ZinbParams object with ZiNB-WaVE parameters estimated from real single-cell profiles.
